situation, Mr. J. Offer, spekes-take of the Agency's informa-tion office here told The Jeru-schlem Post today that at present there is still unaphorment on the settlements, where there has been at increase in the building programme. Another a d d e d souths of income is a marked increase in the outside jobs available for settlers near their homes. increases in the sources in their homes.

After the success of last year's experiments in cottom growing, when 400 dunams were planted in settlements in the central region and every dunam produced 300 kilos of cotton, the department has decided that this year the crop will cover some 2,800 dunams. It will be cultivated on a communal basis in each softlement, with the help of Agency instructors.

Regarding the citrus groves. Mr. Offer stated that, with the trees that will bear fruit shortly and those that were revived last year, 800 dunams will soon be under cultivation by settlements will soon have their own grove in the vicinity of settlements will soon have their own grove in the vicinity of their farms.
